#### HOW TO STYLE THE MODERN BRIDE

Brooklyn Bride is all about catering to the needs, wants and desires of the discerning bride. Brides these days want more than just a beautiful wedding gown, they are looking for a unique, catered to them out of the box experience. Brides are producing their weddings with a style in mind, and as artists and stylists it is our job to bring their dreams to life. The new age bride is not looking for the cookie cutter, run of the mill makeup and hair look – but rather something new, fresh and unexpected.
