

Wedding Unexpected

Join **BODYGRAPHY** educator *Sami Haberkorn* for Wedding Unexpected! This class is all about catering to the needs, wants and desires of the discerning bride. Brides these days are looking for a unique, catered to them out of the box experience. Brides are producing their weddings with a style in mind, and as artists it is our job to bring their dreams to life. The new age bride is looking for something new, fresh and unexpected – and when it comes to makeup the bride wants to make sure the mother of the bride, groom and bridesmaids look the part. This class will teach you how to talk shop with a bride who is searching for a look that is a bit more personal, how to coordinate makeup looks for the wedding party that will complement the color theme of the wedding. We will also cover a slew of beautiful looks including: Boho bride, Mod bride, Quirky bride and more. If you as an artist are looking to build your bridal portfolio and stray away from the typical smokey wing, then this is the class for you!
